FOR IMMEDIATE RELEASE

GOLDEN STATE FREEWAY (I-5) AT TEMPLIN HIGHWAY – STORM-RELATED PAVEMENT DAMAGE CLOSES ONE SOUTHBOUND LANE

North Los Angeles County – The California Department of Transportation (Caltrans) announces that one lane of the southbound Golden State Freeway (I-5) at Templin Highway will be closed at approximately 5 p.m. today, due to storm-related pavement damage. Templin Highway is located approximately five miles north of Castaic along the southern portion of the Grapevine.

Three southbound lanes and three northbound lanes of I-5 are open to motorists.

It is unknown at this time how long repairs will take or when the lane will re-open. The pavement damage is being assessed and additional updates will be forthcoming.

Caltrans thanks motorists for their patience and cooperation during these storm-related roadway repairs.

Caltrans reminds motorists to PLEASE, SLOW FOR THE CONE ZONE.
